**BABY BORN AT KING OF PRUSSIA
DENTIST OFFICE**

This time the tooth fairy left more than a dollar....

July 13th was a lucky day for Jamillah Salaam. The Philadelphia resident and mother of 7 needed just a little help from the tooth fairy to deliver her 8th child – right in the waiting room of her Upper Merion dentist.

With her 7 children looking on, Jamillah Salaam began labor pains in the office of Upper Merion Dental Associates located in King of Prussia, PA just after 7PM on July 13th.

Dr. Ibrahim Durra, DMD with the help of dental assistants, Sharon Patten, Nikki Small, Beth Kohler and Beth Pettet delivered the baby girl just as paramedics arrived.

Mother and baby are currently at Bryn Mawr Hospital and doing fine.

Upper Merion Dental Associates, a practice catering to families in the Philadelphia suburbs for nearly 30 years, is located at 357 South Gulph Rd. in King of Prussia.
